1 Board determines that the public water system has violated or is violating the  
2 California Safe Drinking Water Act (hereinafter "California SDWA"), (CHSC,  
3 Division 104, Part 12, Chapter 4, commencing with Section 116270), or any  
4 regulation, standard, permit, or order issued or adopted thereunder.

5  
6 The State Water Board, acting by and through its Division of Drinking Water  
7 (hereinafter "Division"), and the Deputy Director for the Division, hereby  
8 issues Citation No. 02-17-19C-008 (hereinafter "Citation"), pursuant to  
9 Section 116650 of the CHSC to Kings Mountain Park Mutual (hereinafter  
10 "KMPM"), for violation of CHSC, Section 116555(a)(1) and California Code of  
11 Regulations (hereinafter "CCR"), Title 22, Section 64445.

#### 12 13 **STATEMENT OF FACTS**

14 KMPM is classified as a community water system with a population of 66  
15 individuals served by 23 service connections. KMPM utilizes one surface  
16 water source as its source of domestic water: Tributary to Purisima Creek –  
17 Raw.

18  
19 CHSC, Section 116555(a)(1) requires all public water systems to comply with  
20 primary drinking water standards as defined in CHSC, Section 116275(c).  
21 Primary drinking water standards include maximum levels of contaminants,  
22 specific treatment techniques, and monitoring and reporting requirements as  
23 specified in regulations adopted by the State Water Board.

24  
25 CCR, Title 22, Section 64445(b) requires the water system to initiate quarterly  
26 monitoring for any chemical added to table 64444-A in January after the  
27 effective date of the maximum contaminant level.

Effective December 14, 2017, all community and nontransient noncommunity public water systems were required to monitor their active sources for 1,2,3-trichloropropane (hereinafter "1,2,3-TCP"), and report all sampling results to the State Water Board beginning with the first quarter of 2018 (January 1 to March 31, 2018). Initial monitoring to determine compliance with the 1,2,3-TCP maximum contaminant level (hereinafter "MCL") for 1,2,3-TCP consists of four quarterly samples beginning with the first calendar quarter of 2018.

The State Water Board's electronic water quality database shows that 1,2,3-TCP sampling results have not been submitted for the sources listed below in the fourth quarter of 2018.

Source Name	PS-Code
Tributary to Purisima Creek – Raw	4300539-001

The Division issued Notice of Violation No. 02-17-18N-020 to KMPM on November 28, 2018, for a failure to collect the required initial 1,2,3-TCP monitoring for the third quarter of 2018. The requirements and directives of that enforcement remain in place.

#### DETERMINATION

The State Water Board has determined that KMPM has failed to comply with the CHSC, Section 116555(a)(1) and initial organic chemical monitoring requirements pursuant to CCR, Title 22, Section 64445.

#### DIRECTIVES

KMPM is hereby directed to take the following actions:

- 1
- 2 1. By **March 30, 2019**, collect its next 1,2,3-TCP samples from the raw
- 3 water source listed in the table above and submit them to an
- 4 appropriately accredited laboratory for analysis by a State Water
- 5 Board-approved method. The analytical results of the samples must be
- 6 submitted electronically to the State Water Board, by the laboratory
- 7 that conducts the analysis, no later than the tenth day of the month
- 8 following completion of the analyses. KMPM must collect at least four
- 9 (4) quarterly samples from each source listed in the table below to
- 10 comply with the initial monitoring requirements for 1,2,3-TCP. KMPM
- 11 must submit proper Primary Station Codes to the laboratory with the
- 12 samples collected.

- 17 2. In accordance with CCR, Title 22, Section 64481(g)(1), notify all
- 18 persons served by KMPM of the violation of CCR, Title 22, Section
- 19 64445, by including the following language in KMPM's 2018 Consumer
- 20 Confidence Report: "We are required to monitor your drinking water for
- 21 specific contaminants on a regular basis. Results of regular monitoring
- 22 are an indicator of whether or not your drinking water meets health
- 23 standards. During the calendar year 2018, we did not monitor for 1,2,3-
- 24 trichloropropane from the water sources during the first and second
- 25 calendar quarters and therefore cannot be sure of the quality of your
- 26 drinking water during that time.
- 27

- 1       3. By **March 10, 2019**, submit a monitoring plan for 1,2,3-TCP monitoring  
2       for all sources listed in Directive 1 that meets initial monitoring  
3       requirements per CCR, Title 22, Section 64445. The monitoring plan  
4       must include four consecutive quarters of 1,2,3-TCP monitoring.

5  
6 All submittals required by this Citation, unless otherwise specified in the  
7 directives above, must be electronically submitted to the State Water Board

**FURTHER ENFORCEMENT ACTION**

The California SDWA authorizes the State Water Board to: issue a citation or order with assessment of administrative penalties to a public water system for violation or continued violation of the requirements of the California SDWA or any regulation, permit, standard, citation, or order issued or adopted thereunder including, but not limited to, failure to correct a violation identified in a citation or compliance order. The California SDWA also authorizes the State Water Board to take action to suspend or revoke a permit that has been issued to a public water system if the public water system has violated applicable law or regulations or has failed to comply with an order of the State Water Board, and to petition the superior court to take various enforcement measures against a public water system that has failed to comply with an order of the State Water Board. The State Water Board does not waive any further enforcement action by issuance of this Citation.
